

RECYCLING STATION

Royston's durable Recycling Station

GOING GREEN IS EASY

Put going green on everyone's mind when you install Royston's durable Recycling Station near a cart corral or along your front end. It's an attractive way to implement your store's recycling efforts by giving your customers an organized, convenient place to sort their trash. Bins are clearly labeled with large print for easy identification.

FEATURES

- Large-font decals clearly identify Cans & Bottles, Trash and Paper chutes
- Large cans accommodate maximum amounts of material, minimizing service needs
- Cabinet design directs material straight into the can, with no misses and no messes
- Stainless trim plate protects the cabinet front from wear and tear
- Large stainless bezels (chutes) provide for easy, accurate drop into each can
- Powder-coated steel cabinets, stainless top and stainless chutes stand up to heavy use
- Adjustable six-inch legs aid in easy cleanup underneath and around unit

UPGRADES

- Optional bases
- Laminate top or solid-surface options
- Locking doors

Can Control: Stainless steel guides keep cans centered under the chutes

Fill Full: Large cans accommodate maximum amounts of material, minimizing service needs

Can't Miss: Stainless chutes provide easy access into each can
